BACHELOR

3D Graphics

PROFILE

Professional: Creative and solution-oriented with an interest in both design and technical subjects. Builds competence in programming (HTML, CSS, JavaScript) to combine creativity with technology. I have a good eye for design.

Personal: I am known for working hard, speaking up when needed, and being helpful, diplomatic, and honest. Responsible, flexible, and good at communication, problem-solving, and collaboration. I thrive in environments with good spirit and humour. I express myself creatively through digital art, fashion, and music.
